When the payment of freight charges and/or service charges are made in a currency other than the currency in which the freight charges and/or service charges are stated on the air waybill, such payment will be made in accordance with paragraph 3.3.2 below. The current statement of exchange rate is available for inspection at APZ's office and nothing in those provisions modifies or waives any currency exchange laws or regulations.

3.3.2.1 In case of charges prepaid consignment, the exchange rate shall be in effect on the date of issuance of the air waybill; and

3.3.5 With respect to any charges, expenses or disbursements which cannot be determined at the time when the cargo is handed over for carriage, APZ may require the shipper to deposit with APZ a sum estimated by APZ to be sufficient to cover such charges, expenses and disbursements. 3.3.7 Except prepaid by the shipper, the consignee, by taking delivery or exercising any rights arising out of the contract of carriage, shall agree to pay all such unpaid freight charges and/or service charges, expenditures, fines, penalties and advances. However, this shall not discharge the shipper's guarantee to pay the same. APZ shall have a lien on the cargo for each of the foregoing, and in the event of non-payment thereof, shall have the right to dispose of the cargo at public or private sale (provided that prior to such sale, APZ shall have informed to the shipper or the consignee named on the air waybill by ordinary methods) and to pay itself out of the proceeds of such sale any and all such amounts due. No such sale shall, however, discharge any liability to pay any deficiencies for which the shipper and the consignee shall remain jointly and severally liable. No such lien or right of sale and no right of APZ to collect any of the foregoing shall be in anyway affected, lost or prejudiced by reason of the acknowledgement of payment, if not actually paid, or so far as concerns the right of APZ to collect any of the foregoing, by reason of the delivery of the cargo or the surrender of the possession thereof.

3.3.8 If the actual gross weight, measurement, quantity or declared value for carriage of the cargo exceeds the gross weight, measurement, quantity or declared value for carriage on which freight charges and/or service charges for carriage have been previously computed, APZ shall be entitled to require payment of freight charges and/or service charges on such excess.

3.3.9 No claim for loss or damage to a consignment will be entertained until all freight charges and/or service charges thereon have been paid. However, when no part of the consignment is delivered, a claim with respect to such consignment will be entertained even though freight charges and/or service charges thereon are unpaid. The amount of claims may not be deducted from such freight charges and/or service charges.

forward the consignment for carriage by any other route at the request of shipper or consignee, or forward the consignment for carriage by any other means of transportation as agent of shipper or consignee.

5.4.4 APZ may cancel the carriage of cargo upon refusal of the shipper, after demand by APZ, to pay the amounts or portion thereof so demanded. In such case, APZ shall not be under any liability for such cancellation of carriage.

5.4.5 Subject to applicable laws, government regulations, orders or requirements, APZ is authorized to determine, on a reasonable and not unjustly discriminatory basis, the priority of carriage as between consignments, and as between consignments and other cargo, mail and passengers, and to decide which articles shall be carried and which articles shall not be carried or shall be removed at any time or place whatsoever and to proceed with any flight without all or any part of them .If as a result of determining such priority, cargo is not carried or carriage thereof is postponed or delayed or if any articles are removed from a consignment, APZ will not be liable to shipper or consignee or to any other party for any consequences therefor.

Article 6 Shipper's right of disposition

6.1 Exercise of right of disposition

Every exercise of the right of disposition of the consignment must be made by the shipper or his/her designated agent, if any, and must be applicable to the whole shipment under a single air waybill. The right of disposition over the cargo may only be exercised if the shipper or his/her designated agent produces the part of the air waybill which was delivered to him/her. Instructions as to disposition must be given to APZ in writing in the methods prescribed by APZ. In the event that the exercise of the right of disposition results in a change of consignee, such new consignee shall be deemed to be the consignee appearing on the original air waybill.

6.2 Shipper's Option

Subject to his/her liability to carry out all his/her obligations under the contract of carriage and provided that such right of disposition is not exercised in such way as to prejudice APZ or other shippers, the shipper may exercise his/her right of disposition over the cargo as provided below:

6.2.1 Withdrawing it at the airport of departure or of destination;

6.2.2 Stopping it in the course of the journey on any landing;

6.2.3 Calling for it to be delivered at the place of destination or in the course of the journey to a person other than the consignee named in the air waybill; or

6.2.4 Requiring it to be returned to the airport of departure.

6.3 Extent of Shipper's Right

The shipper's right of disposition shall cease at the moment when, after arrival of the cargo at the airport of destination, the consignee takes possession or requests delivery of the cargo, or otherwise shows his/her acceptance of the cargo. Nevertheless, if the consignee declines to accept the air waybill or the cargo, or if he/she cannot be communicated with, such right of disposition shall be deemed to be continuously vested in the shipper.

6.4 APZ's Inability to Comply

Notwithstanding the provision of paragraph 6.1 above, APZ reserves the right to refuse such execution of shipper's right of disposition, if in the opinion of APZ it is not practicable to carry out such instruction of the shipper. In such event, APZ shall so inform him/her promptly, and the cost of doing so attaches to the freight charges and/or service charges of such consignment.

Article 7 Delivery of Consignment

7.1 Arrival Notice

Unless the consignment is to be re-forwarded in accordance with Article 9, arrival notice of the consignment will, in the absence of shipper's instructions, be sent to the consignee by ordinary methods. However, if a person to be notified is named on the air waybill, such arrival notice of the consignment will be sent to such person. APZ is not liable for non-receipt or delay in receipt of such notice.

7.2 Delivery to Consignee

Except as otherwise specifically provided in the air waybill, delivery of the consignment will be made only to the consignee. However, if a person to be notified is specifically indicated on the air waybill, delivery to the consignee shall be considered to have been effected when arrival notice has been made in advance in accordance with paragraph 7.1 above, and the consignment has been delivered to such person indicated on the air waybill as the person to be notified.

7.3 Failure of consignee to Take Delivery

7.3.1 Subject to the paragraph 7.4 below, if the consignee refuses or fails to take delivery of the consignment after its arrival at the place of delivery, APZ will endeavor to comply with any instructions of the shipper set forth on the air waybill. If no such instructions are so set forth, or if such instructions cannot be reasonably complied with, APZ, after forwarding to the shipper notice of the failure of the consignee to take delivery, may take an action as mentioned below:

7.3.1.1 Returning the consignment on its own service or on any other transportation means to the airport of departure, there to await instructions of the shipper; provided, however, that conditions for such returning shall be made subject to original conditions unless otherwise specified ; or

7.3.1.2. Selling such consignment in one or more lots at public or private sale after holding the consignment for a period of not less than 30days.

7.3.2 The shipper is liable for all charges and expenses resulting from or in connection with the failure to take delivery of the consignment, including but not limited to, freight charges and/or service charges incurred in returning the consignment. If the consignment is returned to the airport of departure and the shipper refuses or neglects to make such payments within 15 days after such return, APZ may dispose of the consignment or any part thereof at public or private sale after giving the shipper at the address stated on the air waybill 10days notice of its intention to do so.

7.3.3 In the event of the sale of the consignment as provided in subparagraph 7.3.1.2 above, either at the place of destination or at the place to which the consignment has been returned, APZ is authorized to pay to itself and other transportation means out of the proceeds of such sale all advances, expenses and costs of sale, holding any surplus subject to the order of the shipper. The sale of any consignment shall, however, not discharge the shipper's liability hereunder to pay any deficiencies due to APZ.

7.4 Disposal of Perishables

When a perishable cargo is delayed in the possession of APZ, is unclaimed or is refused at the airport of destination, or for other reasons is threatened with deterioration, APZ may immediately take such steps necessary for the protection of itself and other parties in interest. Such steps include, but not limited to, the destruction or abandonment of all or any part of the consignment the sending of communications for instructions at the cost of the shipper, the storage of the consignment or any part thereof at the risk and cost of the shipper, or the disposition of the consignment or any part thereof at public or private sale without notice, and such disposition of the consignment shall not discharge the shipper's liability to pay any amounts due to APZ.

Article 8 Cargo Attendants

APZ, in consideration of the nature of the consignment involved or so as to ensure safety to persons, aircraft, other cargo or property, may request the shipper to arrange cargo attendants for the purpose of accompanying such consignment. Except as otherwise provided in APZ's regulations, such transportation of cargo attendants will be subject to APZ's General Conditions of Carriage for International Passengers and Baggage.

Article 9 Pick-up, Delivery and City Terminal Service

- 9.1** The consignments are accepted for carriage from their receipt at APZ's cargo terminal or airport office at the place of departure to the airport at the place of destination.
- 9.2** If APZ performs pick-up, delivery and city terminal service upon request of the shipper or consignee, such service shall be performed subject to:
- 9.2.1 Pick-up, delivery and city terminal service will be available at the designated places and subject to the charges and conditions established by APZ's regulations;
- 9.2.2 If such transportation is operated by APZ itself, it shall be upon the same terms and limitations as to liability as set forth in Article 12 of these Conditions of Carriage.
- 9.3.** APZ may, however, for the account and as an agent of the shipper or the consignee, as the case may be, and without being responsible itself, charge other transportation service with such transportation. In such case, APZ shall not be liable for damage of whatsoever nature arising in connection with such transportation, unless to have been caused by its own negligence or willful fault. If APZ engages other transportation service, the shipper or consignee will authorize APZ to do all things deemed advisable to effect such transportation, including, but without limitation, selection of the means and routes thereof, execution and acceptance of necessary transportation documents (which may include provisions exempting from, or limiting APZ's liability), and consigning of cargo with "No Value Declared (NVD)" notwithstanding any amount of declaration of value on the air waybill.

Article 10 Successive Carriers

Carriage to be performed under one air waybill by several successive carriers is regarded as a single operation.

Article 11 Applicable Convention, Laws and Provisions

11.1 Applicable Convention

International carriage as defined by the Warsaw Convention is subject to the rules and limitation relating to liability established by the Warsaw Convention, and international carriage as defined by the Warsaw Convention as amended at the Hague, 1955 is subject to the rules and limitation relating to liability established by the Warsaw Convention as amended at The Hague, 1955. International carriage as defined by the Montreal Convention is subject to the rules and limitation relating to liability established by the Montreal Convention.

11.2 Applicable Laws and Provisions

To the extent not in conflict with the provisions of paragraph 11.1 above, all carriage and other services performed by APZ are subject to:

- 11.2.1 Applicable law (including national laws implementing the Convention or extending the rules of the Convention to the international carriage other than that defined by the Convention), government regulations, orders or requirements; and
- 11.2.2 These Conditions of Carriage, applicable tariffs and other regulations, which may be inspected at any of APZ's offices and at airports from which APZ operates regular services.

Article 12 APZ's Liability

12.1 Limit of Liability

12.1.1 In the acceptance of the consignment by APZ for carriage, the shipper acknowledges that he/she has been given an opportunity to make a declaration of value for carriage of the consignment an amount exceeding 22 SDR (or its equivalent) per kilogram on the air waybill.

12.1.2 With respect to damage to the consignment for which an amount is entered on the air waybill for the declaration of value for carriage, the liability of APZ will be the actual value of damage, but in no event shall the liability of APZ exceed such declared value for carriage stated on the air waybill.

12.1.3 With respect to damage to the consignment for which 'No Value Declared (NVD)' is entered on the air waybill for the declaration of value for carriage, the liability of APZ will be the actual value of damage, but in no event shall the liability of APZ exceed 22 SDR (or its equivalent) per kilogram of cargo damaged.

12.1.4 The actual value of damage must be proved by the shipper or consignee.

12.2 Limitation of Liability

12.2.1 APZ is not liable to the shipper, consignee or any other persons for any damage of whatsoever nature arising out of, or in connection with the carriage of the cargo or other services performed by APZ or incidental thereto, unless such damage is proved to have been caused by the negligence or willful fault of APZ and there has been no contributory negligence on the part of the shipper or consignee.

12.2.2 APZ is not liable for any damage directly or indirectly arising out of compliance with applicable laws, government regulations, orders or requirements, or from failure of the shipper, consignee or any other person to comply with the same, or out of any cause beyond APZ's control.

12.2.3 In case of damage of a consignment, the weight to be taken into account in determining APZ's limit of liability shall be only weight of package or packages damaged. Nevertheless, if such damage of part of consignment affects the value of other packages carried under the same air waybill, total weight of such packages shall also be taken into account. Notwithstanding the above, for transportation to, or from U.S.A. in case of damage or part thereof, the weight to be used in determining APZ's limit of liability shall be the weight which is used (or proportional share in the case of partial loss, damage or delay) to determine the freight charges of such consignment.

12.2.4 APZ shall not be liable under any circumstances for destruction, loss of or damage to cargo , if such destruction, loss of or damage to cargo is proved to have resulted solely from the inherent defect, quality, nature or vice of that cargo. Shipper and consignee whose consignment caused damage to persons, aircraft, other cargo or property shall indemnify APZ against all losses and expenses incurred by APZ as a result thereof. Cargo which is likely to endanger persons, aircraft, other cargo or property may be abandoned or destroyed by APZ at any time without notice and without liability there for attaching to APZ.

12.2.5 If the damage was caused or contributed to by the negligence or other wrongful act or omission of the person claiming compensation, or the person from whom he/she derives his/her right, APZ shall be wholly or partly exonerated from liability to the claimant to the extent that such negligence or wrongful act or omission caused or contributed to the damage.

12.2.6 No warranty concerning air worthiness of any aircraft engaged in the carriage or its fitness for the carriage of the cargo to which the contract relates is implied in the contract of carriage.

12.2.7 When APZ issues an air waybill for carriage over the lines of another carrier, APZ does so only as the agent of such carrier. APZ shall not be liable for the loss, damage, or delay of cargo not occurring on its own line. Nevertheless, when APZ is a first carrier or last carrier under the agreement to carry, shipper or consignee shall have a right of action against APZ for loss, damage or delay of the cargo.

12.2.8 APZ shall not be liable for any loss, damage or expense arising from death due to natural causes or death or injury of any animal caused by the conduct or acts of the animal itself or of other animals, such as biting, kicking, goring or smothering, nor for that caused or contributed to by the conditions, nature, propensities, or safety of the animals.

12.2.9. In no event will APZ be liable for death or injury to a cargo attendant caused by or contributed to the condition, conduct, propensities of the animals or condition of any other cargo.

12.2.10 Consignments, the contents of which are liable to deteriorate or perish due to change in climate, temperature, altitude, ordinary exposure or because of length of time in transit, will be accepted for carriage without responsibility the part of APZ for loss or damage due to such deterioration or perishability.

12.2.11 APZ shall not be liable in any event for any consequential or special damage; arising from carriage subject to these Conditions of Carriage, whether or not APZ had knowledge that such damage might be incurred.

12.2.12 Whenever the liability of APZ is excluded or limited under these Conditions of Carriage, such exclusion or limitation shall apply to agents, servants or representatives of APZ acting within the scope of their employment and any person whose aircraft is used by APZ and such person's agents, servants and representatives. The aggregate amount recoverable from APZ and from such agents, servants, representatives and such persons shall not exceed the amount of APZ's limit of liability.

12.3 Time Limitations on Claims

12.3.1 Receipt by the person entitled to delivery of the cargo without complaint is prima facie evidence that the cargo has been delivered in good condition and in accordance with the contract of carriage.

12.3.2 No action shall be maintained in the case of loss, damage or delay to cargo unless a complaint is made to APZ in writing by the person entitled to delivery, sufficiently describing the details of claim, within the time set forth below:

12.3.2.1 In the case of damage to or partial loss of the consignment, immediately after its discovery and at the latest within 14 days from the date of receipt of the consignment;

12.3.2.2 In the case of delay, within 21 days from the date on which the consignment has been placed at the disposal of the person entitled to delivery;

12.3.2.3 In the case of non-delivery including total loss of the consignment, within 120 days from the date of issuance of the air waybill; and

12.3.2.4 In the case of all claims other than those provided in subparagraphs 12.3.2.1 to 12.3.2.3 above except any claim relating to personal injury or death, within 270 days from the date of issuance of the air waybill.

12.4 Time Limitation on Actions

Any right to claim damage against APZ shall be extinguished unless an action is brought within 2 years, reckoned from the date of arrival at the airport of destination, or from the date on which the aircraft ought to have arrived, or from the date on which the transportation stopped, whichever is earlier.

12.5 Overriding Law

Insofar as any provision contained or referred to in these Conditions of Carriage, air waybill or other applicable tariffs, may be contrary to applicable laws, government regulations, orders or requirements, such provision shall remain in effect to the extent that it is not overridden thereby, and the invalidity of any provision shall not affect any other part.

12.6 Modification and Waiver

No agents, servants or representatives of APZ have authority to alter, modify or waive any provision of these Conditions of Carriage, contract of carriage or other applicable tariffs.

Article 13 Original Copy of Carriage

These Conditions of Carriage may be published in English, and in the event of any inconsistency or conflict between Korean text and English text, the former shall prevail.
